

To the Parents/Guardians of incoming 7th graders:

7th Grade Immunization Requirements

The Ohio Department of Health requires all incoming 7th graders to have a booster immunization of **Diphtheria, Tetanus, and Pertussis (Tdap)** administered prior to entry. The Ohio Revised Code (ORC) 3313.67 and 3313.671 indicate that schools are responsible for ensuring that students who enroll in school have immunizations required by ODH. The statute also states that schools are to keep records of the immunizations.

:

All pupils entering the 7th and 12th grade are required to be vaccinated against meningococcal disease. One (1) dose of **meningococcal (MCV 4)** vaccine is required prior to entry into the 7th grade.

Please complete and return this form to the Anthony Wayne Jr. High School on Registration Day in August.

Student Printed Name

Date of Birth

Vaccine Record complete date (**month, day, year**) of dose given

Tdap (Diphtheria, Tetanus, Pertussis)	/ /
